Cady, George Hamilton

1906 - 1993

DEGREE: PhD

DATE: 1930

PLACE: Berkeley

TEACHER/RESEARCH ADVISOR: Hildebrand

studied the preparation and properties of fluorides, hypochlorous acid, and hypochlorites; investigated the compositions of gas hydrates; prepared fluoride nitrate (the first hypofluorite); discovered a series of sulfur fluorides and determined their structures; developed a new method for preparing chlorine monoxide and calcium hypochlorite; synthesized fluorocarbons during the Manhattan project.
