©Vera V. Mainz and Gregory S. Girolami 1998

Pollak, Jakob

1872 - 1938 (or later)

DEGREE: PhD

DATE: 1893

PLACE: Vienna

TEACHER/RESEARCH ADVISOR: Weidel

investigated the reactions of polyhydroxy aromatic compounds such as pyrogallol and phloroglucine, esp. the conversion to their corresponding methyl ethers, nitroso compounds, and thiols; studied the synthesis of new nitrogen- and sulfur containing heteroaromatic dyes, esp. polysulfochlorides; evidently deported on racial grounds to Germany from Vienna in 1938 and never seen again.
