Swain, Robert Eccles

1875 - 1961

DEGREE: PhD

DATE: 1904

PLACE: Yale

TEACHER/RESEARCH ADVISOR: Mendel

investigated the environmental effects of the waste products discharged from the Anaconda Copper Mining Co. Greater Smelter in Montana, contributing to the understanding of problems associated with metallurgical smoke; undertook a national survey of smelter operations for the Dept. of Justice in 1909-1911 to determine their potential for injuring national forests; studied the relationship between industrial waste products and atmospheric pollution.

1. PhD advisor confirmed by footnote 1, *Am. J. Physiology* **1905**, 13, 130.
