

Chemistry-Biology Interface TRAINING PROGRAM

5th Annual Symposium

**Friday,
Aug. 28, 2009**
1:00 - 5:00 p.m.
B102 CLSL

Reception
3:15 p.m. - 4:00 p.m.
.....

Keynote Address
4:00 p.m. - 5:00 p.m.

Keynote Speaker: Dr. Suzanne Walker

Professor of Microbiology and Molecular Genetics
Harvard Medical School

Strategies for the Discovery of Novel Antibiotics

Quin H.
Christensen

Insight into Lipoic Acid Ligase Domain Function from the
Thermoplasma acidophilum LplA-LplB Complex

Kristin E.
Finch

The Evaluation of Small Molecule Inhibitors of
Poly(ADP-ribose) Glycohydrolase

Raymond
Morales

Biomolecular Characterization of Archaeal
Type I Topoisomerases

Alexander A.
Parent

Small Molecule Inhibitors of Estrogen and Androgen
Receptor Coactivator Binding

Kara
Smith

Protein Stability and Release from Uniform Biodegradable
Polymer Microspheres
