Staff Member Initials __________

Directions:
- Please meet with your group AHEAD OF TIME and fill out this sheet. *PLEASE BE SURE TO GRAB EVERY GROUP MEMBER'S PHONE NO.
- On the day of your visit show up as early as possible as we must send the groups out on time.
- **Group leaders, please bring this sheet with you on the day of your visit and turn it into 101 Chemistry Annex before your school visit.** After turning in this sheet a staff member will give you your kit with directions to the school.

Reminder:
- Pipettes will be provided to pour in food color drop by drop.
- We re-use many of the supplies provided to you. Please do not throw any supplies away.

Date of Meeting: Location of Meeting:

Date and Time of Classroom Visit:

Questions:
What time and where should your group meet in the Chemistry Annex?

Who is the group driver?

How would you explain to a 3rd grader the concept of surface area?

For the electrolyte demonstration, what solution conducts electricity?

Divide the following tasks so that each member will be a “specialist” in the certain demo:
Discussion of Solutions: ______________________
Surface Area Dissolution: ______________________
Pencil bubble experiment: ______________________
Electrolytes experiment: ______________________
Mountains in Minutes: ______________________
Carbon Dioxide bottle rocket: ______________________

Sign below on the day of your visit in front of the Staff Members to verify that you all have a) met ahead of time and b) are prepared to participate on the visit.
